WORK EXPERIENCE

QUANTASHIFT

Quezon City, Philippines (Remote)

Full Stack Developer

July 2024 – Present

- Built a full stack web app to help clients gain insights into content performance and audience engagement
- Developed the frontend using Next.js and TailwindCSS, ensuring a responsive and modern user experience.
- Implemented an Express.js backend with Firebase authentication and multiple API endpoints for data handling.
- Integrated ChatGPT API to deliver real-time chatbot functionality for interactive user support.
- Managed data storage with SQL, ensuring efficient and scalable handling of user data and analytics.
- Utilized Puppeteer for live data scraping, providing clients with insights into content interactions and engagement metrics.

UPWORK

Philippines (Remote)

Full Stack Developer (Freelance)

Aug 2023 – Jul 2024

- Developed responsive websites using Next.js and Tailwind CSS, achieving consistently high client satisfaction.
- Built RESTful APIs using Node.js and Python, successfully meeting client project requirements.
- Created web scraping and analytics software with Python Selenium to help clients with decision-making processes.

STANDARD INSURANCE

Makati, Philippines (Hybrid)

Web Developer (Internship)

May 2023 – Aug 2023

- Developed RESTful API backend services with Java Spring Boot and PostgreSQL for Scrum meeting tracking.
- Built frontend components based on UI design files using Next.js and Tailwind CSS.
- Integrated session management and implemented JWT to improve authentication and authorization during API calls.

VIDEOHQ

Philippines (Remote)

Software Developer (Freelance)

Dec 2022 – May 2023

- Built simple React.js websites and landing pages for clients, including social media landing pages and link trees.
- Developed Python automation tools to customize a secondary keyboard for faster video editing with macros.
- Created API tools that scrape and summarize data from platforms like Upwork and Reddit for easier client acquisition.

PROJECTS

PORTFOLIO WEBSITE

Jul 2024

- Made a portfolio website using Next.js and Tailwind CSS, showcasing professional experience, skills, and projects.
- Implemented GitHub Actions for CI/CD, ensuring automatic building and deployment with each push in the main branch.

GIT AUTO COMMIT

May 2024

- Created an AI-based application that automatically creates Git commit messages based on code changes.
- Awarded Best in Thesis for outstanding innovation and practical real-world application.

EDUCATION

BATANGAS STATE UNIVERSITY

Malvar, Batangas, Philippines

Bachelor of Science in Computer Science

Aug 2020 – Aug 2024

- Magna Cum Laude, Best in Thesis
